Descrizione vetrina

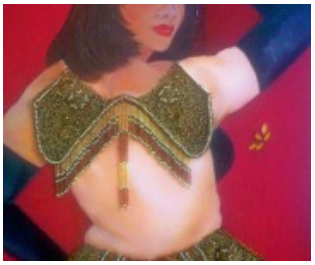

Hallo, I'm Italian, living abroad and studying for a Fine art degree in the UK. I've been painting for years and Art is my passion! I paint and draw using different materials, and I also handpaint lampshades. I do murals as well, so if you want to give your home that "wow factor", just mail me and I'll transform your walls into a masterpiece!..(really!). I'd love to find work in a creative field and be able to express myself artistically and live off my art. It's really difficult to earn a living as an artist, trust me. Bye for now
