Descrizione vetrina

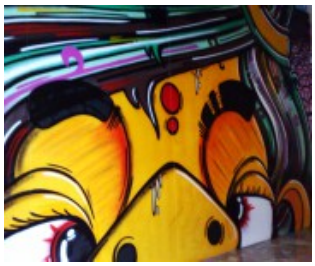

Sono un ragazzo laureato in Urbanistica che ha sempre avuto la passione per il disegno. Ho iniziato a sfogare questa passione dipingendo superfici murarie a cui successivamente ho affiancato tele, legno e tutti gli oggetti che circondano la nostra quotidianità, bici, orologi, armadi, ecc.; in poche parole disegno su qualsiasi superficie disegnabile. Grazie alla conoscenza di alcuni semplici software di grafica, al disegno manuale ho affincato il disegno digitale, cimentandomi nella creazione di loghi, volantini, copertine di libri e rielaborando digitalmente i miei disegni manuali. Mi piacerebbe poter mettere a servizio di qualcuno o qualcosa la mia passione per il disegno.
