Descrizione vetrina

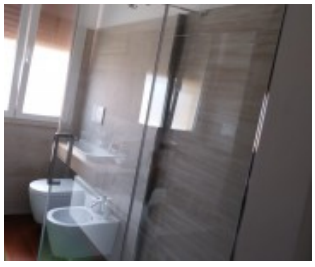

Marcello Gennari si occupa di interior design e design dal 1981 e opera come progettista per l'industria e consulente di immagine e comunicazione. IDEA nasce per il design e opera per l'industria con l'obiettivo di istaurare una collaborazione costruttiva nel tempo. Questa continuità permette mediante un naturale avvicinamento al nostro specifico interlocutore, di progettare il suo "prodotto ideale". Progettare significa avventurarsi lungo un percorso ricco di stimoli, dove la continua elaborazione delle idee, deve condurre ad una insospettata manifestazione creativa. Un prodotto è, al contrario, una testimonianza materiale e deve sostenere la compatibilità con i cicli di lavorazione, rispettare il rapporto qualità/prezzo, saper parlare del suo tempo da protagonista. IDEA di Marcello Gennari Via J. F. Kennedy, 93 Pesaro www.idea-design.it www.trovaerinnova.it/ristrutturazioni/it/partners/interior-designer
